I. #ONENYC Presentation:

- A. The Long Term Planning Committee invited a representative from the Mayor's Office of Long Term Planning and Sustainability to give the community board an overview of the City's long term plan for the next 20 years. The plan is called #ONENYC and focuses on the development of housing, green infrastructure, sustainability, and community engagement to create a just city
- B. The representative sought the committee's input on the plan and offered to put us in touch with representatives from various City agencies that have been charged with implementing the plan. The Mayor's Office stressed that the community board give their input. Updates to the plan are reported annually on Earth Day. It is important for us as a community board to get a sense of the City's long term plan so that as a board we can be proactive about suggesting contextual solutions that meet our needs if the City's efforts are not enough
